SUMMARY OF BUDGET MESSAGE OF GOVERNOR SANFORD

Delivered to joint session of the General Assembly
of North Carolina at 12:00 noon, February 9, 1961

Governor Sanford stated that he was merely giving a summary of the budget as a whole, and that the detailed Budget Report of Governor Hodges and the Advisory Budget Commission was being distributed to each member of the General Assembly. He pointed out that this budget was the responsibility of the previous administration, that they had done a good job, that he generally approved the budget, and that its recommendations were limited to existing revenue sources. He stated that he would in the near future present additional recommendations for strengthening the budget (particularly with respect to education), and that he would also recommend specific measures for obtaining the additional revenue which his recommendations would require.

Fiscal Condition

Governor Sanford stated that the state is in sound financial condition. The next biennium will begin with a General Fund credit balance (all of which would be expended under present budget recommendations) and a Highway Fund balance (all of which is fully committed and not available for appropriations in the budget recommendations). The state's gross debt is $253 million, with an additional $11 1/2 million in bonds authorized but not yet issued; $37 million of the debt is provided for by sinking funds, and $106 million is in road bonds serviced by the gasoline tax; thus the net debt is $120 million in General Fund bonds.

Total State Budget

Total estimated receipts (taxes, bond proceeds, federal funds, agency receipts) available for expenditure during the coming biennium are $1,496 million. Total recommended appropriations are $1,455 million, leaving an estimated credit balance of $42 million, nearly all of which is committed to specific purposes such as highway construction and debt service.

General Fund

General Fund resources for the coming biennium (excluding federal funds and agency receipts) are estimated at $747 million (consisting of $53 million credit balance, $54 million recommended bond issue proceeds, and current revenues of $640 million), and General Fund appropriations recommended are $689 million for current operations and $58 million for capital improvements.

Revenue

The $640 million revenue estimate is 3% above current biennium estimates, but is 8% greater if the $28 million "windfall" from withholding income taxes is excluded from this biennium 's estimated receipts. The Governor stated that he could see no present justification for raising the Advisory Budget Commission's revenue increase estimates.

Appropriations -- General Fund

The Governor observed that 88% of requests for current operations is recommended (virtually all of the "A" budget requests of $626 million, and $61 million out of "B" budget requests of $156 million), and that recommended expenditures for current operations are 18% above comparable expenditures for the current biennium. Capital improvement recommendations are $58 million out of $105 million requested.

Recommended General Fund appropriations include:

General Government
$24 million, an increase of 34%, primarily to continue in force new salary schedules adopted July 1, 1960, increase salaries of Supreme Court Justices, Superior Court judges and solicitors, and to provide for expanded activities of the Department of Revenue and Administration, the State Bureau of Investigation, and for the Contingency and Emergency Fund.

Education
Overall recommended appropriation is $520 million, an increase of 16% over current expenditures (75.4% of total General Fund budget).

Public Schools: Recommendation is $442 million, an increase of 13%, which includes contingent supplemental salaries voted by 1959 General Assembly. $25 million of increase is to take care of enrollment growth of 19,000 per year and $40 million is for salary increases and other improvements (making possible salary range for academic teachers of $3,300 to $5,000 as against present range of $2946 to $4,557) and corresponding increases for administrative personnel and vocational teachers. The state allotment for instructional supplies is increased from $1.12 to $1.50 per pupil, and state support of public school libraries is increased from $1.50 to $3.00 per pupil. The recommendations also provide for a program of professional improvement of teachers, permanent curriculum study and research program under the State Board of Education, administration of the National Defense Education Program, development of vocational education instruction materials, and support for the program for the mentally retarded.

The Governor reiterated the fact that the Advisory Budget Commission had to stay within present tax structure and that he considered their recommendation as merely a departure point with respect to needs, and that he would subsequently deliver a special message on public education.

Higher Education: Recommendation is $58 million, an increase of 26%. This includes a recommendation of tuition increase of $2.2 million to be distributed 50% to scholarships, 40% to faculty salaries, and 10% to libraries. Total increases are primarily for salary increases to be applied in discretion of administrators of various institutions, to provide for teaching larger numbers, purchase of more library books and instructional and scientific equipment, and grants to community colleges (increased from $3.25 to $4.00 per student quarter hour of instruction).

Hospitals and Health
Recommendation is $65 million, an increase of 17%, which represents primarily continuing and expanding operation of mental institutions and training schools for retarded children, and extension of programs of State Board of Health.

Public Welfare
Recommendation is $25 million, an increase of 17%, to support caseloads and average grants for categorical public assistance programs, as projected by state welfare agencies.

Corrections
Recommendation of $4 1/2 million for state juvenile correction program, an increase of 29%. Includes funds for establishment of Juvenile Evaluation and Treatment Center. Recommends transfer of Probation Commission and Board of Paroles to General Fund from Highway Fund.

Public Safety and Regulations
Recommendation of $7 million, an increase of 9%, primarily for financial responsibility program of Department of Motor Vehicles, civil defense program, and expanded activities of other regulatory agencies.

Natural Resources and Recreation
Recommendation of $8 million, increase of 15%, to strengthen programs in forest management, industrial development, commercial fisheries resources, and water resources.

Agriculture
Recommendation, from General Fund, of $12 million, an increase of 7%, which (with Agriculture Fund increases) will permit improved inspectional activities and better tax collection by Department. Also recommends that several farms now being operated by state institutions be discontinued.

Retirement and Pensions
Recommendation of $46 million, an increase of 40%, attributed to normal growth of number of people on state payroll, state contribution to match increased salaries, higher social security contribution rates, and larger contributions to keep system actuarially sound.

Debt Service
Recommendation of $25 million, an increase of 50%, which includes $4.9 million to service recommended capital improvement bonds.

Salary Increases
For employees under State Personnel Act, recommends salary increases of $3 million from General Fund and $2.85 million from Highway Fund (if distributed across-the-board on percentage basis, would be 3% increase or 7% increase when added to merit salary increases).

Capital Improvements
Recommendations as listed in digest of SB5, SB6, and SB7 this bulletin.

[Orders Henderson County and City of Hendersonville Boards of Elections to hold new registrations in county and city prior to next general election, and provides that county board of commissioners and city council shall respectively appropriate necessary funds. Structure: Unified General Court of Justice consisting of appellate division, superior court division, and district court division. Superior court division consists of present superior courts. District court division consists of district courts (sitting in at least one place in each county) which replace all existing courts below the superior court. Each district court will have at least one judge, and in each county at least one magistrate, the number of each to be determined by the General Assembly.

Jurisdiction: Supreme Court may vest part of its appellate jurisdiction in Court of Appeals, if established, but there is right of final appeal to Supreme Court in cases involving Constitutional questions or sentences of death or life imprisonment. SUMMARY OF GOVERNOR SANFORD'S SPECIAL REVENUE MESSAGE

Delivered to joint session of the General Assembly
of North Carolina at 8:00 p.m., March 6, 1961

Governor Sanford discussed the need and the importance of quality education for North Carolina children, and reviewed the possible sources of the additional revenue which will be required to provide that education.

1. Increased liquor tax. The Governor stated that he had concluded that the tax on beer and wine is already as high as is consistent with our regulatory responsibilities, but that an increase in the whiskey tax from the present 10% to 12% (a 20% jump) would be feasible; a greater increase would probably reach the point of diminishing returns.

2. Soft drink tax. The Governor stated that he was unable to justify a tax on soft drinks any more than on ice cream, candy, etc. He stated that this tax tends to defeat itself in diminishing sales, and that it has not been widely adopted. He felt that it is fairer to tax soft drinks at the regular sales tax rate, as is presently being done.

3. Tobacco tax. The Governor stated that representatives of more than half the counties of the state had advised against a tobacco tax, and that many had made campaign pledges against a tobacco tax. He stated that although he does not fully understand this widespread sentiment, he does not now recommend a special tobacco tax, but would continue the present ordinary sales tax on tobacco products.

4. Real estate and other property taxes. The Governor noted that the State has decided to leave real estate taxes to counties and cities, and to tax money rather than property. He opposes any change in this long-accepted approach.

5. Income tax. Income taxes are already burdensome. An increase in the state tax, without some relief from the federal tax, would be too burdensome. As there appears to be no such relief in sight, no increase of state income taxes is recommended.

6. Sales tax. Two possibilities were considered -- (1) an increase in rate or (2) a removal of exemptions. Our statistics and study show that increasing the tax to 4% on shoes, clothing and other items would reach approximately the same people in the same amounts as would a tax at the present 3% level across the board without exemptions, and a tax without exemptions would be easier to administer and collect. Therefore, the Governor recommended that all exemptions from the sales tax be removed. He will submit a proposed bill which will place the sales tax at 3% across the board, except that farm and industrial items and equipment used in production would be taxed at 1% and motor vehicles would be taxed at 2%. Items such as farm products sold for further processing and subsequent taxation, and gasoline already taxed by another method, would not be subject to the sales tax.

The recommended changes will bring in an estimated $83 million during the next biennium. Board of Education requests will require $70 million. Of the remaining $13 million, the Governor recommended an additional $3 million for higher education "B" Budget requests; $500,000 additional to mental hospitals; $2 million for welfare; and a reserve of $3,500,000. This leaves $4 million to be used in partial support of the prison budget, releasing an equal amount to the highway fund for use in urgently needed secondary road construction.

Support of the recommended budget requires continuing support of the people. To make certain that popular attention is directed to the continuing need, the Governor recommended that his tax program be enacted for a 2-year period, and that the proposition be submitted to a vote of the people next fall to determine whether the tax and level of support will be continued after July 1, 1963.

PUBLIC BILLS INTRODUCED -- SENATE

SB 86 - Introduced by Thomas of Union and Morgan

"To amend Chapter 105 of the General Statutes by inserting a new article therein imposing a tax on cigars, cigarettes and smoking tobacco and by inserting therein another new article imposing a tax on soft drinks." [Effective July 1, 1961, adds Art. 2A (Tobacco Tax Article) to impose tax on persons selling cigarettes, cigars and smoking tobacco at following rate: (1) cigarettes, 1 1/2 mills per cigarette; (2) cigars, weighing not more than 3 lbs. per thousand, 1/2¢ per cigar; (3) cigars, weighing more than 3 lbs. per thousand, 1 1/2¢ per cigar; (4) smoking tobacco, 1 1/2¢ on each 10¢ or major fraction thereof of usual retail price per package. Use tax at same rate is levied on consumers of tobacco products with respect to which privilege tax has not been paid. Tax is to be passed on to consumer, and tax may be, but need not be, stated separately on sales slips, advertisements, etc. Dealers having stocks of taxable products on hand on July 1, 1961, must file inventory within 20 days thereafter with Commissioner of Revenue and pay tax computed at above rates. Out-of-state shipments by wholesale dealer are not taxed, provided wholesaler keeps required records. Manufacturers shipping to wholesalers are exempt upon application and compliance with regulations of Commissioner. Prohibits sale of named products without license from Commissioner of Revenue (license is in addition to other licenses required) and fixes license fee at $10 for wholesale dealers; $1 for retail dealers (other than vending machine operators), and $1 for vending machine operators. Out-of-state dealers may secure appropriate license without fee. Licenses are issued by Commissioner of Revenue who may, as condition precedent, require bond in amount he deems adequate to protect state in collection of taxes. Commissioner may revoke license for violation of license provisions or violation of regulation of Commissioner or when licensee has ceased to act in capacity for which licensed. Dealers are required to exhibit license, and persons who are required to affix stamps must file monthly reports showing amount of stock on hand at beginning and end of preceding calendar month, and amount of stamps purchased, used and on hand during report period. Consumers acquiring unstamped products for use or consumption must within 96 hours of acquisition file report showing amount received, accompanied by remittance of tax due. Commissioner is to provide for necessary stamps and may sell stamps directly to taxpayers and may arrange for release of taxpaid stamps to manufacturers, or may permit use of tax metering machine. Discount of 10% is allowed on purchases of $25 or more in stamps, as compensation for services of dealer. Only licensed dealers may affix stamps and any dealer receiving unstamped products must affix stamps within 48 hours (excluding Saturdays, Sundays or legal state holidays). Provides for sale of stamps to out-of-state dealers and permits use of metering machine by such dealers. Unused stamps may be redeemed at 90% of face value upon presentation to Commissioner, and a refund may be obtained upon stamped tobaccos shipped out of state or sold to agencies which state cannot tax. Requires dealers (and others required to keep records and make reports) to keep complete records of sales, such records to be kept for 3 years. Violation of provisions of act are made misdemeanors punishable by fine, imprisonment, or both; forging or counterfeiting of stamps is made a felony punishable by maximum of $2,000 fine, imprisonment for 5 years, or both. Imposes penalty of 50% of tax plus interest of 1/2% per month for failure to pay taxes due. Commissioner of Revenue may make rules and regulations for administration of tax; tax is to be paid only once for any one article; and no city, town or county may levy any tax on tobacco products, other than tax now permitted by GS Ch. 105, Subch. I, Art. 2 (License Taxes). Adds new Art. 2B to impose tax on dealers in soft drinks, at rate of 76¢ per gallon of syrup or simple syrup for soda fountains; 1¢ for each 5¢ or fractional part thereof of retail price of soft drinks not made with syrup; 1¢ for each 12 oz. or fractional part thereof on bottled soft drinks. Exempts milk drinks bottled by farmers or dairies and sold in milk bottles, unfermented pure fruit and vegetable juices, with or without added sugar (provided no artificial flavor, coloring, or preservative or carbonic gas is added), alcoholic beverages taxed under GS Ch. 18, syrup used for purposes other than soft drinks, syrup used in manufacture of bottled soft drinks or exempt milk drinks, and goods intended for out-of-state sale. Commissioner of Revenue shall arrange for tax stamps which he may sell directly to taxpayers, and he may also release taxpaid stamps to manufacturers. Discount of 5% on sales of $25 or more of stamps is allowed. Stamps shall be affixed to original containers of wholesalers or manufacturers within 72 hours after syrup is received or manufactured, and by retailer within 24 hours after syrup is received. Soft drinks tax crowns may be used in lieu of stamps; discount of 5% is allowed on purchases of $100 or more. If bottled drinks are shipped in from out of state, first receiving person (wholesaler, jobber, distributor or retailer) shall affix stamps or crowns. Every person engaged in manufacture, sale or distribution of soft drinks shall keep account of all daily sales, sales slips, bills, invoices, delivery slips, statements, bills of lading, freight bills, credit memoranda and similar documents for 3 years. If records are inadequate Commissioner may calculate number or amount of soft drinks ordinarily manufactured, etc., from syrup and other ingredients, and result obtained is prima facie evidence of sale of that amount. If taxable drinks are found in possession of retailer without required stamps or crowns, manufacturer, wholesaler and retailer are subject to penalties. Penalty for failure to pay tax is 50% of tax plus interest at rate of 1/2% per month. Reuse of stamps or crowns or counterfeiting is felony punishable by maximum fine of $5,000, imprisonment for 5 years, or both. Persons having taxable goods on hand on July 1, 1961, must file inventory with Commissioner within 20 days and pay tax. Effective July 1, 1961.] To Finance.

HB 457 - Introduced by Belk

"To fix retirement benefits of members of the Utilities Commission." [Adds GS 62-1.1 to provide that State Utilities Commission members shall be entitled to same retirement benefits as superior court judges.] To Public Utilities.

HB 458 - Introduced by Wooten & others

"To amend the Vehicle Financial Responsibility Act of 1957 so as to eliminate certain reporting, to provide for certificate of insurance, to provide penalties for false certification, and for other purposes." [Rewrites GS 20-309 to require owner registering motor vehicle to certify that he has financial responsibility and to maintain financial responsibility throughout period of registration. If certificate of financial responsibility shows liability insurance, Commissioner of Motor Vehicles, if has reason to believe insurance is not in effect, may require owner to produce records to prove insurance (failure to do so is prima facie evidence of lack of financial responsibility). Insurer, upon request of Dep't of Motor Vehicles, must verify owner's certification. If liability insurance terminates, license plates and registration certificates must be surrendered unless other financial responsibility is maintained. Amends GS 20-310 to make reference to "financial responsibility" (now, "proof of financial responsibility); to provide that insurer's notice of termination of insurance must state that operation of vehicle without financial responsibility is punishable by loss of driver's license and auto plates for 30 days, and by fine of not less than $200, imprisonment in discretion of court, or both; and to delete requirement that insurer mail to Commissioner notice of termination of insurance by cancellation or failure to renew. Repeals GS 20-310.1 (requiring holder of title to motor vehicle under conditional sales contract or similiar instrument to notify Commissioner that vehicle has been repossessed). Rewrites GS 20-311 to provide that if financial responsibility is not in effect, or was not in effect at time of operation or certification, registration of vehicle and owner's driver's or chauffeur's license shall be revoked for 30 days. Vehicle may not be re-registered within 30 days in name of owner at time of revocation, his spouse, or in name of child or spouse of child. Before vehicle is re-registered, owner must show financial responsibility and maintain proof of financial responsibility for 2 years, and pay registration fees. Rewrites GS 20-313 and adds new GS 20-313.1 to provide following punishment for: (1) operating or permitting to be operated vehicle without financial responsibility, (2) making false certificate concerning financial responsibility, and (3) any firm, corporation or person knowingly giving false information concerning another's financial responsibility: (a) 1st offense; fine not less than $200, imprisonment in discretion of court, or both; (b) 2d offense; fine not less than $400, imprisonment in discretion of court, or both; (c) 3d and subsequent offenses, imprisonment in discretion of court. Commissioner to revoke driver's or chauffeur's license for 30 days upon notice of conviction of (1), (2), or (3) above. Proof of operation and proof of records of Dep't of Motor Vehicles that owner did not have financial responsibility is prima facie evidence of violation of (1) above. Amends GS 20-314 to continue application of Art. 9A, GS Ch. 20 as amended (now, Art. 9A, GS Ch. 20). Repeals GS 20-316 (penalty for giving false information concerning financial responsibility). Effective July 1, 1961.] To Judiciary 1.

[Effective Jan. 1, 1961, creates State Board of Water Well Contractor Examiners consisting of 7 persons appointed by Governor to serve 3-year staggered terms. Four of members are to be water well contractors, one an employee of Dep't. of Water Resources, one an employee of State Board of Health, and one representative of public at large. BULLETIN NO. 55
Tuesday, April 25, 1961

Session: House -- 12 noon

PUBLIC BILLS INTRODUCED - HOUSE

HR 559 - (Joint Resolution) Introduced by Kennedy and Harris of Wake
"Designating May 1 as Law Day in North Carolina." [As title indicates.] Passed three readings and sent to Senate.

HB 564 - Introduced by Lloyd and Harriss of Rowan
"To strengthen the motor vehicle certificate of title laws by providing for a manufacturer's certificate of transfer for new motor vehicles and for the recordation and perfection of security interests in vehicles." [Amends GS 20-52 to provide that applicant for motor vehicle registration must provide names and addresses of lienholders in order of priority together with amount, date and nature of security agreement and to provide that, if application is for new vehicle purchased from manufacturer or dealer, it must be accompanied by manufacturer's certificate properly assigned, except that if vehicle is assigned from out of state dealer, application must be accompanied by such evidence of ownership as is required by that jurisdiction (or if none required, by notarized bill of sale). Adds new GS 20-52.1 to provide that motor vehicle manufacturer transferring new vehicle to another must furnish a manufacturer's certificate of origin. Dealer transferring vehicle to another dealer or to consumer-purchaser must give transferee properly assigned certificate of origin. Amends GS 20-57(d) to provide that liens and encumbrances must be listed on certificate of title in order of priority. Repeals GS 20-58 (relaase by lienholder to owner) and inserts in lieu thereof GS 20-58 and 20-58.1 through GS 20-58.10. Security interests in motor vehicles (except for certain liens created by operation of law and manufacturer-dealer liens where purchaser takes free of lien) are not valid against subsequent transferees or lienholders unless perfected by delivery to Dep't of Motor Vehicles of existing title or application for title together with name and address of lienholder, date, amount and nature of security interest, and proper fee. Sets out rules as to security interests in vehicles brought into state from another jurisdiction. If vehicle owner creates lien after original certificate of title issued, owner must complete application on Dep't form showing lienholder and other pertinent information and deliver to lienholder together with proper fee; lienholder to forward certificate, application and fee to Dep't. If title certificate is in hands of prior lienholder, application is forwarded to Dep't and Dep't secures title from prior lienholder for purpose of entering thereon new lien or issuing new title with new lien entered thereon; title to be returned to first lienholder. Certificate of title showing lien or encumbrance is sufficient notice of the security interest to all creditors and purchasers. Lienholders (except holder of lien dependent upon possession) may assign security interest without affecting owner's interest or validity of lien. Person without notice of assignment protected in dealings with lienholder unless assignee has had certificate of title endorsed to show assignee as lienholder. Provides for cancellation of lien entries on certificate of title through procedures specified in act. Security interest recorded in favor of defunct firm or corporation is void after 3 years from date of recording. Levy of execution, when officer making levy reports that vehicle is in his custody, on vehicle for which certificate of title has been issued constitutes a security interest subject to all other liens recorded in title; if vehicle later released from levy, officer must notify Dep't. Owner who fraudulently conveys vehicle after it has been seized under levy of execution and before officer makes report to Dep't, is guilty of misdemeanor punishable by $25 to $500 fine or imprisonment from 10 days to 12 months. Lienholder, upon request of owner or another lienholder named on certificate, must disclose nature of security agreement and amount secured by it. Cancellation of certificate does not, of itself, affect validity of security interest noted thereon. Rewrites GS 20-68(c) to provide that lost, destroyed, or illegible certificates of title may be re-issued upon application of first lienholder, or if none, owner or legal representative. Person recovering original certificate for which duplicate

has been issued shall return original to Dep't. Amends GS 20-72(b) and GS 20-75 to provide that transfer of ownership of vehicle is not effective until owner or dealer has endorsed title showing name of transferee and any liens against vehicle and submitted it to Dep't or has notified Dep't and delivered title to purchaser, respectively. Amends GS 20-76 to provide that if applicant for new title cannot convince Dep't of his right to title under GS 20-76, title may be issued upon posting of bond of 1 1/2 times value of vehicle with Dep't for benefit of others who may be injured by issuance of title. Bond to be returned at end of three years (or earlier if vehicle is no longer registered in this state and title certificate has been surrendered to Dep't) unless Dep't notified of pendency of action to recover on bond. Amends GS 20-85 to provide that application fees for certificate of title, duplicate certificate of title, and for repossessor certificate of title shall be $1 (now, 50¢) and application fees for recording supplementary liens and for removing lien entries shall be $1. Fees collected for lien recording and removing lien entries to be placed in Lien Recording Fund and used to administer vehicle security interest laws. Amends GS 47-20.2 (place of registration of personal property mortgages) to provide that it does not apply to vehicles required to be registered under motor vehicle laws of NC. GS 20-58 through GS 20-58.10 effective with respect to security interests created on and after July 1, 1962; remainder of act effective July 1, 1961.] To Roads and Highway Safety.

HB 565 - Introduced by Kemp
"To amend G.S. 163-84 to require registrars to report by telephone or otherwise the precinct vote to the county board of elections upon completion of the counting in all primaries and elections." [Requires registrar, or one of judges selected by him, to report by telephone or otherwise total precinct vote for each candidate or proposition to office of county board of elections immediately following completion of vote count. Report is unofficial and has no binding effect upon official canvass. Chairman or clerk of county board of elections shall publish reports, as soon as received, to press, radio and television. Cost of procedure to be charged to operating expense of county elections board.] To Elections and Election Laws.

HB 566 - Introduced by Kemp
"To amend G.S. 69-25.1 relating to elections for creation of rural fire protection districts to prohibit repetitious elections within two years." [Provides that after an election has been held on question of levying special district tax for purpose of providing fire protection, no subsequent election, affecting any or all of that district shall be called within two years for the purpose of levying or increasing the levy of such special tax.] To Elections and Election Laws.

HB 567 - Introduced by High and others
"To amend Part 2 of Article 3 of the General Statutes relating to the definition of dependent children eligible for public assistance." [Adds new GS 108-50 to define dependent child for aid to dependent children purposes (in addition to definition in GS 108-49) as including needy child under 18 who has been deprived of parental support by reason of unemployment of a parent and who is living with relative (as specified in GS 108-49) at home of such relative. Requires State Board of Public Welfare, by regulations, to provide for entering into cooperative agreements with public employment offices in state (with provisions for registration of parents of children defined above and maximum utilization of job placement services of such offices). Provides that act is to be void upon termination of federal aid for purpose set forth in act.] To Public Welfare.

SB 236 - Introduced by Crew

"To amend Chapter 29 of the General Statutes relating to intestate succession." [Effective July 1, 1961 and applicable only to estates of persons dying after July 1, 1961. Amends GS 29-2(1) to provide that no gift to spouse shall be considered an advancement unless so designated by the intestate donor in a writing signed by the donor at time of gift (now, unless designated in writing as advancement). Rewrites GS 29-10 (Renunciation) with changes as follows: (a) Heir may renounce the succession to his share of that part of a decedent's estate to which decedent dies intestate. Renunciation may be filed by heir's attorney, guardian, or next friend. (b) Renunciation must be filed within 12 months after death of intestate if letters of administration are not issued within that period, or if letters are issued during that period, within 6 months after issuance, or if litigation that affects heir's share is pending at the expiration of period for filing renunciation, then within reasonable time as allowed by clerk of superior court (now, must occur within one year of death). (c) In no event shall persons who inherit by representation in the place of renouncer receive a greater portion of decedent's estate than renouncer would have received. (d) If renunciation is not made within times or in manner allowed, it is conclusively deemed waived. Encumbrance of heir's interest in decedent's estate or expentancy constitutes waiver of person's right to renounce; such waiver shall be effective only from time written notice thereof is delivered to CSC of county in which renunciation must be filed. Records of renunciations and waiver of renunciation shall be kept by CSC. Rewrites GS 29-27 to limit application of advancement where advancee predeceases donor to lineal heirs of advancee who take by intestate succession from the intestate donor and to delete provisions for proportionate charge against such heirs' shares of intestate donor's estate. Amends GS 29-30 as follows: (1) to give surviving spouse election as to whether life estate in dwelling shall be included in elective life estate; (2) to spell out time and manner for filing election; (3) to spell out types of debts to which elective share is subjected; and (4) to provide that if election is not made within time and manner allowed by section, right to elective share is conclusively deemed waived and surviving spouse's interests in real estate are terminated.] To Judiciary 1.

Specifies that computation of value of property passing to spouse is to include, among other things: life estate, annunity for life, insurance proceeds, property passing by survivorship, and principal of trust where spouse holds general power of appointment over the principal of the trust estate; but, is not to include any property to extent that surviving spouse (or another in his behalf) contributed to purchase price or donated it. Determination of value for dissent purposes is to be based on value at time of death, and executor and spouse may agree thereto subject to approval of clerk of superior court, or CSC is authorized to appoint disinterested persons to make such determination under specified conditions. Amends GS 30-2 to provide that dissent may be made at any time within six months of issuance of letters testamentary (now of probate) or, if litigation affecting share of surviving spouse is pending, within reasonable time as allowed by CSC, and that failure to dissent within time and in manner provided constitutes waiver of right. Provides that dissent is to be in writing (now in person) and signed and acknowledged by spouse or authorized attorney. Amends GS 30-3 (a) to specify that the half which spouse is to receive upon dissent with no surviving child or parent means 1/2 of net estate (defined in GS 29-2(3) as estate exclusive of family allowances, costs of administration and lawful claims against estate), determined before deduction of federal estate tax.] To Judiciary 1.

Act is to be administered by Comm'r of Agriculture with state-appropriated funds. Defines terms, and exempts from act: (1) slaughtering establishments whose commercial operations do not extend beyond county lines (except where Comm'r determines that intra-county operations are affecting stability of market or are detrimental to public health); (2) one who slaughters or has meat slaughtered for domestic use of himself or family; (3) sale of cured hams, shoulders or bacon in quantities under limits set by Comm'r and when handled in accordance with regulations of Board of Agriculture; and, (4) firms operating under license from U.S. Dep't of Agriculture. Provides for suspension or revocation of meat inspection by Comm'r for violation of act or regulations, and establishes procedure (including notice, hearing and appeals) therefor. Requires fees for inspections beyond 8 hours per day or 40 hours per week or on Sundays or holidays. Comm'r is to provide approved establishments with stamps containing words "North Carolina Inspected and Passed" and approved meat therefrom must be so stamped (together with plant number), and may not be transported inter-county without being so stamped. Authorizes re-inspection of meat even though previously approved. Provides that no food may contain dye or other substance which impairs its wholesomeness or is not approved by Comm'r.
